

Specifications

Product Type: Cannabis All-In-One

Dimension: 28.1*18.0*87.5mm (0.5ml/1.0ml x2)

Dimension: 28.1*18.0*91.7mm (1.5ml x2)

Oil Capacity: 0.5ml/1.0ml/1.5ml x 2 (Dual Chamber)

Battery Capacity: 350mAh

Material: PCTG + Aluminum Alloy

Heating Element: Ceramic Coil

Output: Constant Voltage

Charging Port: Type-C

Preheating Time: 5 Seconds

Central Post: Postless

Draw Mode: Autodraw

Filling Instructions

- ① Fill the oil into the two side filling hole (make sure the oil does not exceed the chamber's capacity).
- ② Attach the mouthpiece to the oil chamber from the top down.
- ③ Secure the silicone plug on the mouthpiece.

Note:

- Do not fill oil into the central airpaths.
- Use an injection needle with a diameter no greater than 2.5mm.
- Clean any oil drips immediately to prevent mess.
- Attach the mouthpiece within 30 seconds or as quickly as possible after filling to avoid leaking or clogging.
- Ensure the mouthpiece is securely attached with no visible gaps.

Gemini User Manual

Preheat/Power On/Off Instructions

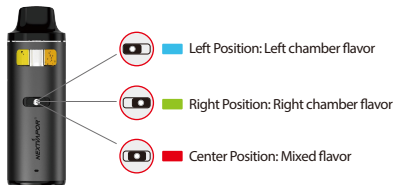

Preheat/Power On

Slide the switch to the left (ON) to turn on the device (the blue light flashes twice). And the device begins a 5-second preheat. Preheating will stop if any operation is performed or the device is charged.

Power Off

Slide the switch to the right to turn off the device. The red light flashes twice to indicate shutdown. The device will automatically shut off after 15 minutes of inactivity.

Chamber Switch

Slide the switch to adjust the flavor.

Turn Left: Left chamber flavor (the green light flashes once).

Turn Right: Right chamber flavor (the blue light flashes once).

Center Position: Mixed flavor (the red light flashes once).

Charging Instructions

During Charging

The red light flashes, indicating the device is charging.

Charging Complete

The light turns off when the battery is fully charged. When the power cable is removed, the red light flashes 3 times.

WARNING

1. Insufficient battery level or voltage may lead to suboptimal performance. Please recharge the device promptly.
2. Use the original charging cable. Avoid fast chargers or adapters over 5 Volts/2 Amps.
3. Don't leave the device unattended while charging. Do not use the device while charging.
4. Keep the device at close to room temperature. Avoid extreme heat or cold (extreme heat may cause explosions). Store away from direct sunlight for long periods.
5. Do not use if the device is damaged, wet, or has been dropped. Do not disassemble or modify it.
