

## Specifications

Product Type: Cannabis All-In-One  
Dimension: 65.6\*36.8\*17.3mm  
Tank Capacity: 0.5mL/1.0mL/2.0mL  
Battery Capacity: 380mAh  
Mouthpiece Material: PC+ABS  
Shell Material: PC+ Aluminum Alloy  
Heating Element: Ceramic Coil  
Central Post: Postless  
Charging Port: Type-C  
Output: Constant Voltage  
Draw Mode: Autodraw

## Filling Instructions

- ① Fill the oil into the filling hole (make sure the oil does not exceed the chamber's capacity).
- ② Attach the mouthpiece to the oil chamber from the top down.
- ③ Secure the silicone plug on the mouthpiece.

### Note:

- Do not fill oil into the central airpath.
- Use an injection needle with a diameter no greater than 2.5mm.
- Clean any oil drips immediately to prevent mess.
- Attach the mouthpiece within 30 seconds or as quickly as possible after filling to avoid leaking or clogging.
- Ensure the mouthpiece is securely attached with no visible gaps.

# NEXGEN Lite User Manual

## Power On/Off Instructions

The device features auto-activation upon inhalation, powering on with a gentle draw.

## Charging Instructions

### ① During Charging:

The LED remains on, indicating the device is charging.

### ② Charging Complete:

The LED turns off when the battery is fully charged. When the power cable is removed, the light flashes 3 times.

## WARNING

1. Insufficient battery level or voltage may lead to suboptimal performance. Please recharge the device promptly.
2. Use the original charging cable. Avoid fast chargers or adapters over 5 Volts/2 Amps.
3. Don't leave the device unattended while charging. Do not use the device while charging.
4. Keep the device at close to room temperature. Avoid extreme heat or cold (extreme heat may cause explosions). Store away from direct sunlight for long periods.
5. Do not use if the device is damaged, wet, or has been dropped. Do not disassemble or modify it.
