

Specifications

Product Type: Cannabis All-In-One

Dimension: 106.0*14.0*25.0mm (2.0ml)

99.0*14.0*25.0mm (0.5ml/1.0ml)

Tank Capacity: 0.5ml/1.0ml/2.0ml

Battery Capacity: 310mAh

Tank Material: PCTG

Mouthpiece Material: PCTG

Shell Material: Aluminum Alloy

Heating Element: Ceramic Coil

Central Post: Postless

Output: Variable Voltage

Charging Port: Type-C

Preheating Time: 5 Seconds

Draw Mode: Autodraw (unlock button first)

Filling Instructions

- ① Fill the oil into the central filling hole (make sure the oil does not exceed the chamber's capacity).
- ② Attach the mouthpiece to the oil chamber from the top down.
- ③ Secure the silicone plug on the mouthpiece.

Note:

- Do not fill oil into the central airpath.
- Use an injection needle with a diameter no greater than 2.5mm.
- Clean any oil drips immediately to prevent mess.
- Attach the mouthpiece within 30 seconds or as quickly as possible after filling to avoid leaking or clogging.
- Ensure the mouthpiece is securely attached with no visible gaps.

SwitchUp User Manual

Function Instructions

Preheat/Power On

Slide the switch left to any ON position (L / M / H) to power on the device (blue light flashes twice). A 5-second preheat starts only in L mode.

Power Off

Slide the switch to the left (OFF) to turn off the device. The white light flashes three times to indicate shutdown.

Note:

- The device will automatically shut off after 45 minutes of inactivity.
- Preheating will stop if any operation is performed or the device is charged.

Wattage Adjustment

Slide the switch to L / M / H to set the power level.

Charging Instructions

① During Charging

The red light flashes, indicating the device is charging.

② Charging Complete

The light turns off when the battery is fully charged. When the power cable is removed, the light flashes 3 times.

WARNING

1. The indicator light flashes red 10 times needs to be charged.
2. Insufficient battery level or voltage may lead to suboptimal performance. Please recharge the device promptly.
3. Use the original charging cable. Avoid fast chargers or adapters over 5 Volts/2 Amps.
4. Don't leave the device unattended while charging. Do not use the device while charging.
5. Keep the device at close to room temperature. Avoid extreme heat or cold (extreme heat may cause explosions). Store away from direct sunlight for long periods.
6. Do not use if the device is damaged, wet, or has been dropped. Do not disassemble or modify it.
