

Specifications

Product Type: Cannabis All-In-One

Dimension: Ø31*16*58mm (0.5ml/1.0ml)

Oil Capacity: 0.5ml/1.0ml

Battery Capacity: 300mAh

Tank Material: PCTG

Mouthpiece Material: PCTG

Tank Material: PCTG

Preheat Duration: 8 Seconds

Heating Element: Ceramic Coil

Output: Constant Voltage

Charging Port: Type-C

Draw Mode: Autodraw

Filling Instructions

- ① Fill the oil into the central filling hole (make sure the oil does not exceed the chamber's capacity).
- ② Attach the mouthpiece to the oil chamber from the top down.
- ③ Secure the silicone plug on the mouthpiece.

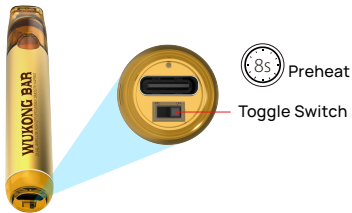

Note:

- Do not fill oil into the two side airpaths.
- Use an injection needle with a diameter no greater than 2.5mm.
- Clean any oil drips immediately to prevent mess.
- Attach the mouthpiece within 30 seconds or as quickly as possible after filling to avoid leaking or clogging.
- Ensure the mouthpiece is securely attached with no visible gaps.

Wukong Bar User Manual

Preheat/Power On/Off Instructions

Preheat/Power On

Slide the switch to the left (ON)  to turn on and begin an 8-second preheat with an output voltage of 1.8V (the white will gradually brighten and fade out). Preheating will stop if any operation is performed or the switch is toggled. To restart preheat, turn the device off and back on.

Power Off

Slide the switch to the right (OFF)  to turn off the device (the white light flashes 2 times). The device automatically shuts off after 45 minutes of inactivity.

Charging Instructions

1. During Charging: The indicator light remains on, indicating charging in progress.

2. Charging Complete: The indicator light turns off once charging is complete. When the device is fully charged and the power is plugged in again, the indicator will briefly light up for 2 seconds and then turns off.

WARNING

1. Insufficient battery level or voltage may lead to suboptimal performance. Please recharge the device promptly.
2. Use the original charging cable. Avoid fast chargers or adapters over 5 Volts/2 Amps.
3. Don't leave the device unattended while charging. Do not use the device while charging.
4. Keep the device at close to room temperature. Avoid extreme heat or cold (extreme heat may cause explosions). Store away from direct sunlight for long periods.
5. Do not use if the device is damaged, wet, or has been dropped. Do not disassemble or modify it.
